

**Michigan Invasive Plant Council (MIPC)  
2010 Annual Symposium  
Friday, March 5, 2008 9:00-4:00**

The Michigan Invasive Plant Council is pleased to present its 2010 annual symposium on invasive plants. This year's program will focus on success stories for invasive species control efforts from around the state. The program will also include the official unveiling of the results of the first 30 species that have been assessed utilizing the MIPC Invasive Plant Assessment System. Many years in the making, these plants have been assessed based on a wide variety of characteristics to determine their ability in invade and degrade a wide array of natural systems.

This symposium will be geared towards professionals in the field of vegetation management (Michigan Department of Agriculture pesticide license recertification credits pending for categories 5 and 6).

**Location: Lincoln Room, Kellogg Hotel & Conference Center**
